About me: My approach to programming and web development mirrors my approach to all intellectual and creative pursuits: I labor to reconcile craftsmanship with concept, abstraction with attention to detail, and depth of knowledge with breadth.

Experience   Chicago, IL

Multiple, Inc., *Web Developer*   July 2017 - April 2018

JAVASCRIPT, VUE.JS, jQUERY, WEBPACK, CRAFT CMS/TWIG, SCSS/CSS w/ BEM, LARAVEL, PHP, NODE/NPM, RUBY

- Created and implemented custom full-stack plugin in Craft CMS allowing client to easily incorporate information from external legacy API
- Optimized UI-heavy internal microsite by reconfiguring code from existing jQuery/Gulp frontend to Webpack/Vue.js structure
- Adapt to tech stacks based on evolving project needs in our design-driven, small-team agency environment
- Foster team- and company-wide collaboration to improve development process

CodeNow, *Volunteer Instructor*   June, Oct 2017

Co-teach a two-weekend intensive app-building workshop to local high school students.

Freelance and Personal Projects

PYTHON, D3, AXIOS, SQLITE3, SEQUELIZE, STRIPE, AWS

I consistently work to increase my understanding of full stack application development as well as programming and computer science fundamentals outside of the scope of my daily duties.

General Assembly Web Development Immersive   Jan - Apr 2017
Student

HTML, CSS/LESS, JAVASCRIPT, jQUERY, REACT, GULP, AJAX, NODE, EXPRESS, RUBY, POSTGRESQL SINATRA, ACTIVERECORD

Spent 500+ hours in classroom learning to develop and manipulate CRUD web applications and APIs using MVC frameworks, building one game and two full stack apps.

Education

The University of Chicago

BA 2015, Interdisciplinary Studies in the Humanities
Designed interdisciplinary curriculum incorporating philosophy and anthropology, graduating with special honors for an outstanding thesis.
